opposed say no. The amendments carry. The chair recognizes Senator Warner.

SENATOR WARNER: Mr. President, I move LB 357 be advanced. What this bill does is recognizes the changing process in several areas in harvesting in that you find more and more people, farmers, who because of the difficulty of getting grain to market and finding ample help to run a number of vehicles, are purchasing used truck trailer, truck tractor trailer combinations which they only use during harvest time. What the bill does is permits a special permit so that it is easier to identify the vehicle. The special permit goes for a thirty day period in which those thirty day periods they pay the full commercial rate on the truck tractor. During that period of wheat harvest and Milo and corn harvest usually probably sixty days, sixty to ninety days, they can use these vehicles and, of course, what many are doing is own maybe one or two of these trailers
